

- **Small reminder :**

- Please remember to back up old files before installation.
- Applicable to MHServerEmu 1.0 .
- Online players do not need to install this.

- **Installation:**

1. Make sure both the MHServerEmu (and Apache) servers are completely shut down before proceeding.
2. Copy "news" folders into \GameFolder\Apache24\htdocs\ and replace the existing folder with the same name.
(The **Marvel Heroes Omega 2.16a Steam** shown in the image is the **Game Folder**, please replace it accordingly)

- **Additional note:**

1. The files replaced in the folder are :
 \Game Folder\Apache24\htdocs\news\index.html
 \Game Folder\Apache24\htdocs\news\images\
2. All HTML modifications were completed using ChatGPT and Gemini.
